REACH COMPLIANCE DECLARATION

MAC Valves, Inc. ("MAC") is a global manufacturing leader in pneumatic and fluid valves, proportional valves, flow controls, regulators, and related products associated with industrial automation and fluid power control devices.

MAC qualifies as an article supplier under Regulation (EC) No. 1907/2006 (REACH) and is therefore considered a downstream user for purposes of REACH (Registration, Evaluation, Authorisation and Restriction of Chemicals) compliance.

Based on information obtained from our suppliers, MAC declares that the Substances of Very High Concern (SVHCs) included on the European Chemicals Agency (ECHA) Candidate List as of February 4, 2026 are to the best of our knowledge, not present above the reporting threshold of 0.1% weight by weight (w/w) in any article.

This declaration is based on information provided by our supply chain and is believed to be accurate at the time of issuance. MAC continues to monitor updates to the ECHA Candidate List and will review this declaration as additional substances are added or regulatory requirements change.

A handwritten signature in black ink, appearing to read "JCR", with a long horizontal flourish extending to the right.

Joseph C. Richardson
Vice President of Sales
MAC VALVES, Inc.
